Subject Stream - Commerce
2023

2023
Kandy, Sri Lanka

Management Information System Special (Undergraduate), *National School of Business Management*

October 2023 – October 2027
Pitipana, Sri Lanka

SOFT SKILLS

Strong Communication & Interpersonal Skill | leaderships | Self-Motivated | Team Player | proficient in Microsoft Office

PROFESSIONAL SKILLS

JAVA | PHP | JavaScript | Dart | Programming C | Python | HTML5 | CSS | MySQL | SQL | Firebase | Laravel | Flutter | Bootstrap

LANGUAGES

Sinhala — Native

English — Fluent

PROJECTS

eCommerce Coffee Shop Website, *PHP, MySQL, HTML, CSS, JavaScript*

Developed a complete online coffee shop platform with login, product management, and ordering system. Implemented admin dashboard for adding, updating, and deleting products. Integrated database operations for managing orders and customer details.

Library Management System, *Java Servlets, JSP, JDBC, MVC Architecture*

Designed a system for managing book records, users, and borrowing activities. Implemented role-based access control for administrators and users.

Jewelry Shop Website, *HTML5, CSS, JavaScript*

Elegant showcase website for a jewelry brand featuring collections, product details, and a visually appealing UI.

Waruna Enterprise, *Laravel, PHP, MySQL*

A robust Laravel-based eCommerce platform with admin dashboard, inventory management, and secure transactions.

MayBay Restaurant, *Java, JSP, Servlets, MVC*

Restaurant management system built on MVC architecture with online booking, menu management, and order tracking.
JavaJSPServletsMVC

ZenStudy Relaxing App, *Flutter, Dart, Firebase*

A sleek cross-platform mobile productivity app with task management, local persistence, and smooth animations.

Sri Lanka Travel Website, *HTML5, CSS, JavaScript*

Tourism platform showcasing 50+ Sri Lankan destinations with interactive maps, search, and detailed travel guides.

Space Dodger – Python Mini Game, *Python, Pygame*

Developed a 2D arcade-style space survival game using Python and Pygame. The game features dynamic asteroid obstacles, laser shooting mechanics, power-ups (shield and score multiplier), particle explosion effects, and a persistent high-score system. Implemented real-time game physics, collision detection, sound effects, and responsive keyboard controls.

PROFESSIONAL EXPERIENCE

AI for Beginners, *successfully completed the HP LIFE online course*

By completing this course, the above-named student has gained a basic understanding of the impact of artificial intelligence (AI) on the technological landscape.

AWS Educate Introduction to Cloud, *completed the Cloud Computing course*

Earners of this badge have completed the Cloud Computing 101 training and achieved the required scores on the post-course assessment.

PUBLICATIONS

Sustainable Crop Diversification and Recommendation Strategies: A Review from Traditional to AI-Enhanced Approaches,,
published at the International Conference on Advances in Computing and Technology (ICACT), NSBM Green University.

This paper reviews 80+ peer-reviewed studies (2019–2025) and examines the transition from traditional agronomic practices to AI- and IoT-driven crop recommendation systems.

EXTRA & CO-CURRICULAR ACTIVITIES

President – CompuVate Association, National School of Business Management (NSBM)

Pitipana, Homagam, Srilanka

Leading student initiatives related to **technology, innovation, and professional development**. Organizing technical events including **IDEATHON 1.0, MindX InterSchool Quiz Competition, InnoXplore Intra Uni**, Coordinating with university staff and student teams to ensure successful event execution.

Executive Member - Association of Information System (AIS), National School of Business Management (NSBM)

Pitipana, Homagama, Srilanka

Serving as an executive member, contributing to professional development initiatives and bridging academia with industry through impactful programs and workshops.
